

# IRIS

## Conference Management

by Blueprint RF

*From small break-out sessions to large ballroom events, conference planners require high-speed internet access for their attendees.*

*IRIS puts control into the hands of the hotel. With a few clicks, a meeting room's WIFI can be quickly designated for a specific date and time with the network name and password of the guests' choice.*

*Blueprint RF offers IRIS at one flat annual fee complete with remote service, 24/7 support and the high-quality equipment that our customers expect.*

- *Web-based Permission Driven Application*
- *Mobile-Friendly*
- *Complimentary Remote Support 24/7*
- *Designated Support Agents*
- *Easy to Schedule Event & Detail Calendar*
- *Unique Secure SSID for Each Event*
- *Bandwidth Regulation*
- *Quality Service Guarantees*
- *Staff Training*

*Additional services are available through Blueprint RF as needed at an additional cost.*
